The above statement is correct.

F. L. SLUSHER, Cashier.

The above figures show the condition of this Bank. We invite accounts of all desiring safe, conservative and liberal banking connections. No rediscounts. No borrowed money.

NINNEKAH ITEMS.

Frank Mosley of Bailey spent Tuesday with friends in Ninneka.

Miss Nancy Hunicutt returned Thursday from Carnegie, where she had been visiting friends.

Misses Hattie and Winifred Thompson will go to Edmond Monday, to spend the summer in the State Normal school.

Drs. Gordon and Gerard attended the State Medical meet in Oklahoma City last week.

Rev. A. B. Carpenter of Lawton, filled his regular appointment at the Christian church Sunday.

A great many from this place attended the closing exercises of the Union Hill school last Thursday and Friday. Prof. Jackson and wife taught a very successful school there this year, and the programs were well worth while.

Miss Gladys Shannon left for her home in Burleson, Texas, Tuesday. She was accompanied by her sister, Mrs. Henry Proctor, who will spend several weeks with her mother.

Louis Gardner, of the C. H. S., spent the week-end with his parents.

E. H. Russell made a business trip to Edmond Monday.

The Methodist Sunday school will give a children's day program the fourth Sunday night, May 28, at 8 p. m. Everyone is invited to attend.

Mrs. Mattie Looney of Alex is here, the guest of Mrs. Guy Looney.

Mr. and Mrs. Dawson, Mrs. J. C. Manley and Mrs. Mildred Paul went to Chickasha Monday to attend the grand encampment of the L. O. O. F.

Mrs. Otto Dahl was taken to the Chickasha hospital Monday.

The Bush family of Norge were the guests of Mr. and Mrs. R. A. Thompson Sunday.

One of the most delightful gatherings in the history of the Grady county rural schools was the banquet given by the alumni in the gymnasium of the Amber Consolidated school Saturday night. Covers were laid for eighty. The guests were ushered through a bower of pink and white roses into the banquet hall, where a dinner of beautiful appointments was served by the domestic science class. Many inspiring addresses were given during the evening, and the superiority of the consolidated school over the one and two-room school was fully demonstrated. Four years ago, before consolidation, Amber had an enrollment of about 150 pupils, and employed four teachers, with no high school graduates. Today they have an enrollment of over three hundred, employ eight teachers, and have thirteen accredited high school graduates. The Ninneka Consolidated district and the Amber district are almost identical in size, valuation, and enrollment. These two are the only consolidated districts in Grady county, and it is up to them to demonstrate the superior advantages of such schools. Here is to your success, Amber, and we see no reason why, with the help of our intelligent school board, and the co-operation of the progressive patrons, we should not keep pace with you in this great school work.

TO WIDEN SCOPE OF SCHOOLS

(Continued from Page One.)
cannery where the boys may can their produce and preserve it until such time as there is a better market. The boys and girls may be encouraged to raise poultry and pigs. While the boy is doing this agricultural work under the supervision of an instructor, if he works three months during the summer he will learn as much agriculture during the three months as he would should he take the subject an entire year in the usual way. In case he does the work in a creditable manner, he should have credit in school for having done a year's work in agriculture. In addition to this, boys may do a great deal of the park work about the city under the direction of the agriculturalist or park superintendent and in this way earn money which will enable them to bear their expenses next year while going to school. However, the greatest result will be keeping the boys engaged with profitable employment and teaching them to be thrifty, self-re-

Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Dr. Price's Cream Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Dr. Price's Cream Baking Powder produces the finest food, and its use, therefore, results in an actual saving.

DR. PRICE'S CREAM BAKING POWDER

MADE FROM CREAM OF TARTAR

lient and self-supporting. It will keep them off the streets and many times out of bad company.

"I discussed this plan before sixty of the leading city superintendents of this state at a meeting at Norman on Friday, May 14th, and at the close I asked how many superintendents would be willing to co-operate with their boards of education in working out a system of this kind. About two-thirds of the superintendents held up their hands as being willing to make the effort. Then someone made a motion, and it carried without a dissenting vote, that I write a letter to the superintendents and boards of education calling their attention to this feature. This request is not presented to you in the way of a demand, neither do we insist upon any board and superintendent doing this work. We merely offer and give it our approval as a plan by which boys and girls may profitably use their time which otherwise would be wasted. We must impress upon the boy's mind the importance of at least making the money he spends and becoming self-supporting if we would have him realize something of the future responsibilities of life. A thousand boys in Oklahoma who will spend their summers in idleness could be employed in this manner. "What we have said concerning the boys can be said with equal force and is equally applicable to the girls, in their particular lines of work. Their club work should be carried on under the direction of the domestic science teacher or some suitable person and they should be given school credit for this work. "It is also our opinion that the night school should be given serious consideration by all cities where a sufficient number of pupils who find it necessary to work during the day will attend in the evening to make a successful night school possible. The school that prepares the largest per cent of its pupils for useful service is the school that is doing the greatest amount of good for its community. There is but one reason for maintaining public schools today and that is to fit the children of the community for better service, which means better citizenship."

The Delight of Children

The self-developed, inner-flavour of New Post Toasties bear a unique attraction for the kiddies—they even like them dry from the package for their lunches. A box of Toasties provides "eats" that will delight the children.

New Post Toasties are usually served with cream and sugar, in which form the flavour is more pronounced and the flakes more delicious. These New Toasties do not "chaff" or crumble in the package and they don't mush down in cream—both common defects of old-fashioned "corn flakes."

Then, too, notice the tiny bubbles on the flakes, produced by the quick, intense heat of a new patented process of making which imparts delightful crispness and a substantial body to the flakes.

New Post Toasties are a vast improvement over any old-style "corn flakes."

For tomorrow's breakfast—

New Post Toasties

SOLD BY GROCERS EVERYWHERE.
